#### 9. ORGANISATIONAL CHART:

#### 10. Student Feedback Procedure:

#### **Procedure**

Any process should be regularly monitored for continuous corrections and improvements. It helps the system to take corrective actions and avoid any extreme circumstances. At AIMIT the continuous feedback system is followed to ensure the same. Feedback is taken from all stakeholders like students, industry, parents etc. The feedback is taken not just on academics but on all other aspects of educational service. The feedback system is designed, arranged and administered under the supervision of head of the institution. Here, feedback from students is gathered twice. At the beginning of the semester formative feedback is taken and at the end of the semester summative feedback is gathered. The questionnaire helps to gather data on various parameters such as — **Knowledge of the faculty on the respective subject, Communication,** 

punctuality, discipline, being approachable, ability to make the subject interesting, ability to give stimulating assignments, portion completion, etc. Such data gathered is tabulated and analyzed to draw inferences. The summary of such feedback is communicated to respective faculty members for review and retrospect.

Further, a meeting is done between the head of the institution and individual faculty members to discuss the feedback. Wherever required the faculty members are motivated, counseled, and supported with necessary additional training, FDPs, etc. Apart from this formal feedback system, the HOI will constantly be in touch with the students and hence gather information about any grievance and the same will be addressed without any delay.

The summative feedback includes the feedback given by the students at the end of each semester and also end of the program (exit interview) and end semester performance of the students.

#### 9. Grievance Redressal Mechanism for students:

Students are provided with various channels to express their grievance.

- 1. The students (both 1st year and 2nd year) are assigned a mentor at the beginning of MBA program itself. The students meet their mentors on regular basis as per the schedule and also they may also approach the mentor as and when they need to interact as well. During these mentoring sessions, the mentors listen to the students and guide them and also try to address their grievances. If any issue requires the attention of higher authorities, it will be brought to the notice of them to handle it.
- 2. Each section of the students will have a Class Advisor, a faculty member who teaches them at least one subject. The students for all their everyday queries contact the class advisors.
- 3. Wherever required the issues expressed by the students will be escalated to the HOD/Principal.
- 4. To maintain a healthy, stress-free learning environment among students, to receive grievances from them and to conduct a fare inquiry, the institution has a **Grievances Redressal Committee** in place.

5. The Grievances Redressal committee is responsible to conduct inquiries and submit

the recommendations to the secretary for suitable actions within 15 days from the receipt

of the complaint.

The students can also submit their grievances online using this

Email: grievance redressal@agieducation.org

**Implementation:** 

The mentor records the student information in the student mentoring log-book

about their Academic Performance, Attendance, Participation, Leadership

skills etc.

• Once a month the status of attendance is put up on the notice board for

students to know.

• Further, the mentor meets all students under his /her care at least three times in

a semester once each after every internal test He may also meet them

whenever the need arises and discuss their problems. He keeps a record of all

such interactions and also keeps the designated coordinator informed of any

general problems faced by the students. These problems will be discussed

with the Director in the monthly meetings.

11. Grievance Redressal Mechanism for faculty & staff

The Director & Principal convenes a meeting of all staff once a month to discuss the

progress, issues and challenges in the institute. Issues and challenges of all nature are

discussed and solutions are sought. To the grievances expressed, suggestions and

solutions will be discussed and appropriate actions will be taken to ensure the smooth

functioning of the institute. Also, appropriate procedures are adopted to avoid and ensure

non-re-occurrence of the problem.
